

Teaching and Learning Content: Health and Social Care

Year Group: 11

Spring Term – Half Term 3

Topics:

- The different types of health and social care services and barriers to accessing them

Home Learning:

Largely research based to enable students to build upon content ahead of assessments

Key Questions:

- What health and social care services are available?
- Why might individuals need to use them?
- What are the different health care services?
- How do they meet service user needs?
- What are the different social care services?
- How do they meet service user needs?
- What services are there for children and young people?
- What services are there for older adults?
- What is the role of informal social care provided by relatives, friends and neighbours?

Students will:

- Explore the health and social care services that are available and why individuals may need to use them.
- Explore different health care services and how they meet service user needs.
- Understand the role of allied health professionals, e.g. physiotherapy, occupational therapy, speech and language therapy, dieticians.
- Know different social care services and how they meet service user needs.
- Investigate services for children and young people.
- Investigate services for adults or children with specific needs.
- Explore services for older adults.
- Understand the role of informal social care provided by relatives, friends and neighbours.

Diagnosis

- Retrieval activities from knowledge organisers like starter quizzes
- Cold Calling
- Exit tickets

Therapy

- Sharing model responses (teacher/student led feedback)
- Live marking (Purple Pen)
- Peer to peer support in lessons and self-assessment in Green Pen

Testing

- Students will complete a practice assessment to gauge understanding ahead of official internal assessment
- REPAIR Lesson
