

Year 10 Combined Science Summer Homework

Over the summer break, we would like you to address gaps you may have in your knowledge.

Scan the QR codes to watch the videos.

For each video create either:

- 1) Flash cards
- 2) Posters
- 3) Quizzes
- 4) Hand written notes

 The Heart	 Blood vessels	 Current and Potential Difference
 Electrolysis	 Formula Mass	 Latent Heat

Any students that shows this work to their science teacher in September will be put forward for a prize. The science department will also be monitoring Century Tech and their will be prizes for the most questions complete.

Wishing you an enjoyable summer break.

Meadow Park Science Department
