

Autumn Term 1	Autumn Term 2	Spring Term 1	Spring Term 2	Summer Term 1	Summer Term 2
The Changing Economic World	Natural Hazards- Case study Nepal and Chile, Typhoon Haiyan and Somerset flood2014	The Living World- Case study- TRF Malaysia, HOT environment- Sahel region and Thar desert	Urban Issues Challenges- NEE- Nigeria and Lagos HIC- UK and Birmingham	Challenges of Resource Management – Case study IBIS	River Landforms and management-Case study- Banbury Management and River Tees
Assessment		Key Concepts/ Skills		Reading	
<p>Students will learn to BUG the question and PEEHEL strategy to answer these questions</p> <p>Students will be given summative mini mocks throughout to test the application of knowledge in exam skill style.</p> <p>Students will complete a set of standard mocks in the Summer Term 2</p>		<p>Core skills: Locational knowledge, Place knowledge, Physical human impact, Geographical skills</p> <p>Key Concepts: Sectors of economy, Population, Overpopulation, Inequality, Urbanisation, Social Economic Opportunities, Underpopulation, Desertification, Plate tectonic, Tectonic Hazard, Weather Hazard, Tropical storms Global warming, Greenhouse effect, Urbanisation, Monsoon, Trade, Extreme Weather, sustainable development, selective logging, ecotourism, Adaptations, Deindustrialisation, Urban regeneration, Food insecurity, Malnourishment, Water Deficit ,Integrated Transport System, Long profile, River Management, Hydrograph.</p>		<p>Students will use past papers and example questions to apply knowledge in exam style skill. Students will use a range of strategies to access written texts and ensure comprehension</p> <p>Students will be given written sources, geographical images and a range of comprehension texts.</p>	
Enrichment		Careers		Useful resources and revision	
		<p>A career in geography offers a wide range of opportunities for students who are curious about the world and how people, places, and environments interact. Geographers can work in fields like environmental management, urban planning, GIS, transportation, disaster management, remote sensing, and teaching. Their skills help solve real-world problems such as climate change, resource conservation, and sustainable development. With both scientific and analytical abilities, geography</p>		<p>BBC Bitesize BBC Teach Internet geography Home - Internet Geography Cool geography-Welcome to Coolgeography.co.uk GCSE Geography9-1 AQA- Oxford press by Simon Ross PMT-AQA GCSE Geography Revision Revision Organiser</p>	

	professionals play an important role in planning our future and understanding global challenges.
